SUMMARY

Motivated Full Stack Developer with 2+ years of academic and internship experience building web applications using PHP, JavaScript, MySQL, and modern frontend tools. Passionate about solving real-world problems with clean code and user-friendly interfaces. Eager to contribute to dynamic teams and learn in fast-paced environments.

EDUCATION

Bachelor of Computer Application (BCA) 2023 - 2026

MGM's College of CS & IT, Nanded.

CGPA:- 8.53 | Percentage:- 74.67%

EXPERIENCE

Web Developer Intern | PreDrag System LLP | Jan 2025 – April 2026

- Developed auto-logout functionality for PHP desktop app by detecting system inactivity.
- Built a dynamic analytics dashboard for visualizing user data.
- Created a responsive single-page site for an infrastructure firm.
- Debugged and enhanced legacy codebase, adding new features and resolving bugs.

PROJECTS

Warehouse Inventory Management System

Role: Full-Stack Developer

Tech Stack: HTML5, CSS3, Bootstrap 5, SASS, PHP (CodeIgniter)

- Redesigned the user interface of a web-based inventory management system to improve usability and responsiveness.
- Utilized modern frontend technologies (HTML5, CSS3, Bootstrap 5, SASS) for a clean, mobile-friendly design.
- Integrated PHP with CodeIgniter to ensure efficient backend performance and dynamic content rendering.
- Developed features to track material usage, manage site-wise requirements, and monitor inventory across multiple construction locations.
- Enhanced user experience by implementing intuitive navigation and optimized UI components.

Campus Hire

Role: Full-Stack Developer
Tech Stack: HTML5, CSS3, Bootstrap 5, SCSS, JavaScript, React.js ,PHP, MySQL

- Designed and developed a recruitment platform connecting students with companies through college associations.
- Implemented role-based access control for students, companies, and administrators.
- Built the entire application stack, including frontend UI, backend logic, and database integration.
- Ensured a responsive and user-friendly interface for all user roles.
- Focused on secure, efficient data handling and dynamic functionality.

Preschool Learning

Role: Frontend Developer
Tech Stack: HTML5, CSS3, Bootstrap 5, JavaScript
Live URL: https://preschoollearning.vercel.app

- Developed a fully responsive educational website aimed at preschool children and their parents.
- Designed engaging UI components with interactive content to support early learning.
- Ensured smooth user experience with clean layout, optimized images, and mobile-first design.
- Used Bootstrap 5 to create reusable and consistent components across pages.

SKILL

- Programming Languages: PHP, JavaScript, Node.js
- Frontend: HTML5, CSS3, Bootstrap 5, Tailwind CSS
- Frameworks & Libraries: CodeIgniter, React.js, Express.js
- Database: MySQL
- Tools: Git, GitHub, Prompt Engineering, VS Code
